ABOUT US

Sekolah Menengah Rafflesia Kajang

To build global leaders, Sekolah Menengah Rafflesia Kajang is driven by its aspiration to give students an excellent foundation in their secondary school life by providing them with an enriching holistic education.

As students begin this pivotal phase of their education, it is vital that we ensure that our young people are mature, responsible and self-disciplined. At Rafflesia, we place equal emphasis upon aspects of character and students' academic abilities. In doing so, we ensure that students are equipped to thrive in life and future leadership.

OUR CURRICULUM

Kurikulum Standard Sekolah Menengah (KSSM)

We always look forward when it comes to the curriculum of our education. As our country's educational curriculum progresses for the better, so does our school's vision for greater learning. The Kurikulum Standard Sekolah Menengah (KSSM) under our school philosophy will cover more than just the usual curriculum – holistic education.

KSSM is the current curriculum with achievable sets of standards. It comprises of knowledge, skills and values tailored for secondary schools' learners. This will enhance their learning to go beyond acquiring communication skills, self development by embracing the use of Science, Technology, Engineering and Mathematics towards understanding humanitarian issues by focusing on the child's physical, emotional, spiritual and aesthetical development.

Our KSSM helps students to be college or university-ready as well as giving them the competitive edge to be brilliant students both in their academic and curricular activities.

From Form 1 to Form 5, every stage of education is planned to get them all geared up for greater challenges beyond the classroom.

Co-Curricular Activities (CCA)

RAFFLESIA in Action gets the students up and running with zest and vigour in their activities.

As an all-integrated society, it provides all Rafflesians with a vast array of activities to stimulate, engage and encourage their participation in the arts and creative thinking. Through these self-discovery activities, they can further enhance their interpersonal development and social behavior.

From building leadership, fostering teamwork to honing presentation and other skills, these personal qualities building will steer and inspire all Rafflesians to develop altruistic interests to serve and benefit others. They learn to be sociable, well-liked, respectful, charitable and most importantly to have the qualities of a global leader.

Trilingual Efficiency

In the age of globalisation and vibrant multiculturalism, it is increasingly important for young learners to embrace global diversity by being multilingual so that they can be confident and successful global citizens of the future.

Rafflesia firmly believes that students must be provided with this multilingual foundation from youth. With a future-focused understanding of the importance of English and Mandarin as global languages, and with an appreciation of the practical and cultural value of Bahasa Malaysia, we place due emphasis upon these languages within our curriculum. Thus we ensure that our learners can interact with confidence in a range of situations.
