Week 22 & Week 23 (9/6/20 - 26/6/20)

Dear Parents,

Pride on the faces of the children as they gear towards making their online learning more meaningful. With a warm welcome extended to a few new friends joining us this semester, we have decided to keep the participation for SD-HAT Challenge an open category. Therefore, feel free to make more SD-HATs and submit your entries again and again. We are delighted to see the hands-on unique creations of these bearing in mind the practicality to wear them to school soon. We feel confident and comforted knowing that they are doing this project repetitively while having fun with their families. Suffice to say, just the thought of them, learning to keep themselves safe as they learn to adjust to the new norms in social distancing, we are excitedly urging for schools to re-open.

United in our efforts, providing consistent reminders to use masks, washing hands and keeping the required social distance from each other, we are ready and looking forward to the day the official announcement for the re-opening of schools to be made. Just thinking of them coming in droves wearing their unique SD-HATs on the first day send warm thoughts to all of us. Let's continue to ensure that the young ones remain alert to this new norms physically, emotionally and spiritually to minimise any negative impact on their well-being.

Do stay strong and safe for tomorrow will be better. If we want the rainbow, we got to put up with the rain. Thank you for your unwavering and continuous support.

Regards:

Ms Loy

My fun and amazing cats,

The population of my cats has increased. I started with two cats named Wallace and Lulu. Wallace is very shy but he is fat, very active and agile in the late year of 2017. (My cats are not of pedigree breed , though). Lulu on the other hand is fat and heavy. She is alert to her surroundings and she follows Wallace everywhere he goes. In 2018, a cat of about 2 years in cat, years came to join the family.

I named it Brian , not knowing its gender only to be corrected by my brother who confirmed that it was a "she". So, he named her Mitens. Mitens is a very playful cat and is friendly to people when it gets treated like a royalty. In late 2018, Mitens gave birth to 4 kittens which means I now have 7 cats in total. After naming them "Tiger", "Moose", "Snowy" and "Ninja", they were given away.

My mother ended up adopting her first cat named "Crockshanks" who produced her own kittens only to have 2 of them being gobbled up by her boyfriend, which I have named "C.P". Crockshanks's boyfriend, CP still comes looking for food at night, perhaps hoping to have more of the remaining kittens.

I wish I can kill C.P but in the end, I only can bear to throw my slippers at him.

An Accident
By Salmaan Sher, Year 4

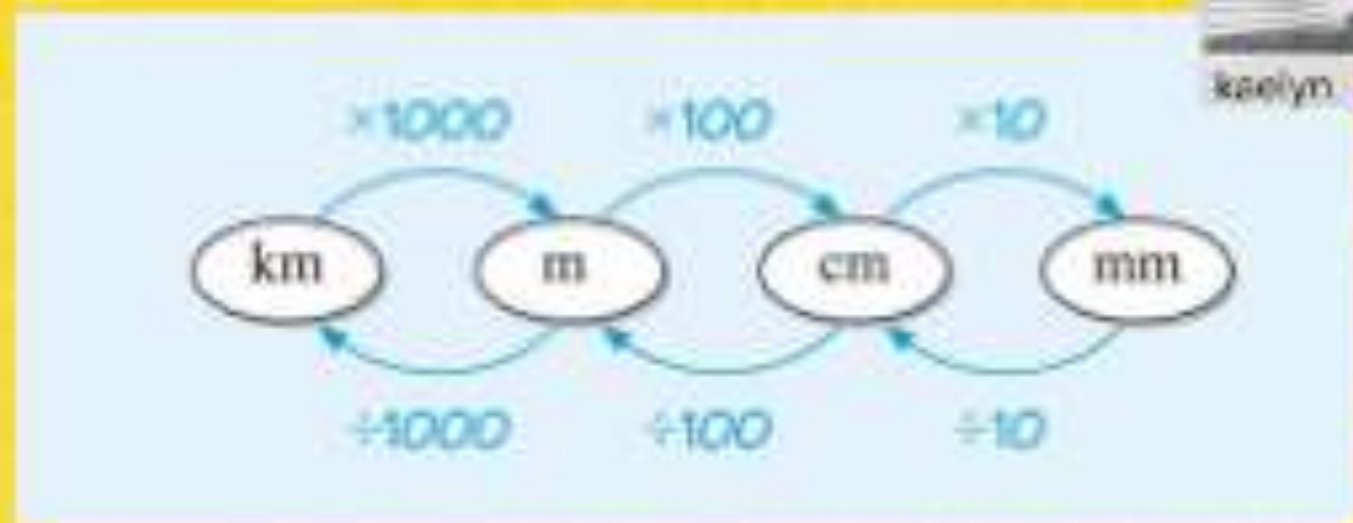

As I was walking along the street then I heard a loud BANG!!! Three cars had crashed into each other. I called the emergency services for help, they said they would come in ten minutes. A while later three ambulances arrived and the ones were sent to the hospital. The paramedics treated one of the men for a broken rib, one had head injury and the other victim had a broken arm. The police came to investigate the accident and to collect statements from eye witnesses at the scene. The road was soon closed for the public convenience.

Jualan Atas Talian

Kebaikan vs Keburukan

Saya lebih gemar membeli barang di pusat beli belah berbanding atas talian kerana saya boleh melihat kualiti barang dan mempunyai lebih banyak pilihan

Jualan atas talian menjimatkan masa pelanggan kerana mereka tidak perlu berkunjung ke kedai, menempuhi kesesakan lalu lintas dan beratur untuk mendapatkan perkhidmatan.

Dengan adanya jualan atas talian, pembeli boleh membeli barang pada bila-bila masa dan di mana-mana sahaja tanpa adanya had waktu jualan.

Saya melihat membeli barang atas talian ada banyak kelemahan seperti berisiko ditipu, tidak mengetahui kualiti barang, tidak berlaku interaksi sosial dan barang mungkin tidak sampai pada masa dijanjikan.

Kelemahan jualan atas talian terjadi apabila para peniaga tidak jujur memberikan maklumat tentang produk yang dijual oleh mereka. Pembeli berisiko ditipu.

Jualan atas talian menyebabkan masyarakat menjadi malas untuk bergerak dan berinteraksi dengan orang lain.

Jualan atas talian lebih menjimatkan masa, tenaga dan wang pengguna. Pengguna juga tidak perlu bersesak di tempat ramai orang dan lebih selamat. Jualan atas talian juga lebih fleksibiliti untuk pengguna menukar perancangan pada bila-bila masa.

Saya lebih suka membeli barang atas talian kerana harganya lebih murah, kerana sesetengah aplikasi atas talian menawarkan bawcher kepada pengguna dan pilihannya lebih banyak.

Alli will always remember the traumatising encounter he had experienced a year ago. He was home alone when he heard glass shatter. He went to check it out of curiosity. Feeling scared, he peeped behind the curtains and saw a thief climbing out of the window.

He took action and lodged a police report. The police questioned him for further information. Fortunately, Alli remembered the thief's appearance so he described the thief to them.

The police managed to track the thief's vehicle. They went after the thief and caught him. The thief was sent behind bars.

The hard-working boy:

Amir was a well-considerate and hard-working boy in school. Unfortunately, he scored low marks in his recent examinations and was devastated but he knew that it was no use crying over spilt milk.

He decided not to give up and still had some faith in himself, so he asked one of his classmates, Josh, to help him since he was one of the most intelligent students in the school. Since that day, Amir and Josh studied and brainstormed ideas while doing their revisions together in the library. This went on for weeks and months until their UPSR examination arrived. On the day of the examination, Amir and Josh were so nervous but that didn't stop them from getting their dream grades. They sat for the UPSR examination and hoped for the best when it was over.

Few weeks passed and the results were announced. Josh and Amir were so nervous but was rewarded with the great news that they had passed the UPSR examination with flying colours. They were so proud of themselves and the effort that they have put in. Amir thanked Josh for his tutelage and for being there when he was feeling down and as the saying goes "A friend in need is a friend indeed".

Hi, Ali.

I am here to tell you about my holidays. We had a very interesting experience. Before we went to Pulau Watercress, we had a hearty breakfast. Upon reaching Pulau Watercress, we headed for the limestone caves. It was a wonderful experience as we were attracted to the stalactites and stalagmites. We also visited Kampung Sabak, a fishing village. After our latest scrumptious lunch, we went to the island's wildlife sanctuary. My father took a lot of photographs for memories. We had a memorable time. Looking forward to hearing from you.

A break - in

One day, Amir was left alone in the house since his mum went grocery shopping. In the midst of doing homework, he heard a loud sound coming from his neighbour's house. Out of curiosity, he peeped through the window and saw a man climbing into his neighbour's house.

He was suspicious and decided to call the police. He gave the police the details of the incident. The police sprang into action and headed to the scene.

Soon, the police arrived and caught the thief in action. He was shocked and was taken to the police station for questioning. Amir was praised for being watchful and as the saying goes, "Love thy neighbour".

Amir and the burglar.

Amir is a child whom the neighbours admire. One day, he heard a loud noise coming from his neighbour's house. Curious, he wanted to know what had happened. Amir was astonished to find a mysterious black man climbing through a window.

Without wasting a single moment, Amir quickly called the police. The police came within minutes and Amir recounted about the suspicious man. Suddenly the thief came out of the house with a bag filled with jewelries. Unsuspectingly, he ran into one of the policemen. Amir saw him and confirmed that he was the burglar who broke into the house.

The thief was caught and taken away. When the neighbours returned, Amir told them what had happened. As a token of appreciation, he got some money from the neighbours for being alert and for acting quickly.

One morning, Adam was doing his assignment. Suddenly, he heard a tremendous sound. He peeped through the window and witnessed a stranger entering the neighbour's house.

From what he knew, they went for a vacation. Without a second thought, he immediately dialed the police. The police rushed to the scene.

The burglar got petrified and took to his heels. The police praised him for his alertness. Then Adam told the incident to the neighbours when they arrived. Upon hearing the incident, the neighbours rewarded him with a number of coins. It was an incident that Adam will never forget.

One night, Ali heard a loud sound and got frightened. He peeped through the window and saw a man climbing through the window of his neighbour's house. His neighbour had just gone on a holiday overseas.

Ali felt suspicious so he called the police. He told the police every single detail that the police needed to know. In a blink of an eye, a team of police personnel arrived at his neighbour's house.

The thief was frightened and he ran as fast as he could. The policeman ran after him and they eventually caught the thief. When his neighbour returned from his holiday, he thanked Ali.
