Star OF THE WEEK

Ariel is a well-behaved student at school. She is such a bright, witty, responsible and wise student who is well-liked by those who know her. She has certainly come a long way since the day she first joined us many years back. She has indeed blossomed from a “cry baby” to an observant, confident, and matured student. We take pride in recognising her as our “Star Of the Week” in this issue. She’ll be another one of our many students whom we’ll remember many years down the road. Ariel, keep it up!

TRADITIONAL VALUES
GLOBAL VISION

Dear Parents/Guardians,

I hope you all are safe and secure during this pandemic time. The Covid -19 pandemic has halted the normal lifestyle of people across the globe, the virtual world has come to the rescue. Amidst the deadly outbreak of Covid-19, I strongly believe that Hope is Strength.

We are entering into a new era of technology and it is the key aspect of learning. Now time has come to focus on online learning as it is the new methodology of teaching and learning. The concept of traditional education has changed radically as it has entered the new era, the revolution of online education. The pandemic situation has given a fillip to accelerate online learning. Education is going to be digital in the foreseeable future. At Sekolah Rendah Rafflesia Puchong (SRRP) we are dedicated to a student-centered program that promotes academic excellence through an enriched, rigorous interdisciplinary curriculum.

I would like to take this opportunity to congratulate everyone on this 64th Independence Day. Freedom does not come easily. We are all indebted to our national heroes who made this country what it is today. As patriotic citizens, let's put extra effort into performing our civic responsibilities. Our diversity should not be seen as a weakness but as our greatest strength. It is only by working together that we can build a resilient and thriving nation. Happy Independence Day! Thank you for your unwavering and continuous support.

These plastic containers were once used for chicken rice. I make use of them for storing items such as hairbands, clips and jewellery.

Those plastic containers were once used for pastries. Now, they are used for collecting extra water from the flowerpots.

These kitchenware belonged to my mother's friend who moved to Australia. I'm packing them to be donated. There are dishes, cups, ladles, spoons, forks and even knives.

Those plastic containers were once used for pastries. Now, they are used for collecting extra water from the flowerpots.

This bin was filled with paint when my father got it. Now, it is used to store soil in it for gardening.

DON'T LET YOUR LEARNING LEAD TO KNOWLEDGE BUT LET YOUR LEARNING LEAD TO ACTIONS.

This bin was filled with paint when my father got it. Now, it is used to store soil in it for gardening.

This cardboard box and strips of cardboard are once used for delivery. Now, the cardboard box is used for my kitten, Nikki, to play inside it and the strips of cardboard are used as scratchers or toys for Nikki.

These cardboard box, polystyrene foam and tile are made into a place where food delivery riders can put food on it.

These are all the items to be reused and recycled that I managed to collect.

These plastic containers are once used for storing cookies. Now, we store milo powder, nestum powder, detergent, cat food and more.

These are canvas bags. My mother uses it for grocery shopping.

These are all the items to be reused and recycled that I managed to collect.

Body (2) :-

I realised that I couldn't bend my thumb and it was very painful. I headed to the hospital and consulted an orthopaedic. He said that he needed to perform a minor surgery on my thumb.

My Body :-

A Terrible Day

Last Wednesday, I had a terrible day. My eyes were swollen. At first, I thought my sister had poked my right-side eye with an object.

I took an ice pack to put against my eye to reduce the swelling. Then, I went to show my eye to my father who told me that the swelling had nothing to do with my sister using any objects to poke my eyes.

My dad told me that I had a sty which is a small, red and painful lump. He immediately took me to the clinic. The doctor wanted to pierce the sty with a needle, however I refused.

The doctor instead gave me some medication for me to apply for my eyes. After that, I went home and took my medicine and slept because it was extremely painful.

The next day, I woke up and found that the swelling has reduced. Unfortunately, till today my eyes is still swollen, however the pain has gone down. What a terrible experience and a terrible day for me!

INTRODUCTION TO A COMPOSITION

A Terrible Day

Introduction :-

Last Sunday, I had a terrible day. It was the day that I had a nasty fall. I had fallen from a ladder and my thumb was caught between the ladder.

My Introduction :-

Body (3) :-

After the surgery, I went home with a big bandage around the thumb. It was difficult to do quite a lot of things by myself especially when I had to soap myself during bath-times. The thumb was stiff and hard.

My Body :-

Body (1) :-

I yelled in pain as I fell. I checked my thumb. It was red and swollen. With difficulty, I struggled to get away from the ladder.

My Body :-

Conclusion :-

After a fortnight, the bandage was removed. The swell was gone and so was the bruise. Unfortunately, I ended up with a distorted thumb. What a terrible experience and a terrible day for me!

My Conclusion :-
